Ammonia: a toxic modern day pollutant

ET gears up for Clean Air Day

What our customers say about us

"Excellent service throughout. Clear communication, frequent updates on manufacturing stage and expected delivery, and technical support afterwards. We're very pleased with the service delivered, especially considering the difficulties between March and July. I would highly recommend ETS to other research groups working in the atmospheric sciences"

Earth Observation Equipment Specialist, NERC Field Spectroscopy Facility

"Just wanted to thank you and your team. Once again ET has gone over and above. Much appreciated"

Air Quality Specialist, Highways England

"I would just like to pass on my gratitude for the speed and attitude of one of your staff members. I manage 400 subcontracting companies and all go through a 3 yearly review. Becky always completes this with little fuss, really quickly and concisley. She is a credit to your organisation"

Subcontractor Assurance Manager, EMCOR UK
